

Garden Bingo®

Rules of Play

1. Each player gets 1 card.
2. Player writes a number from 1 – 10 in random order under each letter on the card. **Write Small!**
3. Play begins when the caller selects a number from the container of numbers and announces it.
4. The caller then reads the question associated with that number to the players. (Example: "G 4")
5. If the player has the number on their card, they should choose the correct answer from their answer sheet and write it in that space on their card. Also place a bean on the square to mark it. *
6. When players have covered spaces across, down, diagonally, or blackout, they announce "Garden".
7. The caller (or assistant) will then verify that the player is a winner by checking the answers on the card with the Correct Answer Key.
8. Winning players may then select a prize.

* An optional way to play at this point is for the caller to announce the correct answer and players cover the space with a bean seed if they have the correct answer.
