What JMG® is all about

The Junior Master Gardener® (JMG®) Program is an international youth gardening program operated nationwide through the Cooperative Extension network.

JMG is "Growing Good Kids" by igniting a passion for learning, success and service through a unique gardening education.

JMG inspires youths to be of service to others through leadership development and service learning projects and rewards them with certification and recognition.

Be a part of JMG-Growing healthy minds and bodies for kids!

A 4-H Development Program

Who can Participate?

Schools, youth outreach programs, summer camps, after-school programs

How to Start?

Get Junior Master Gardener curriculum, have a group of at least 5 children, complete free registration packet

Recognition for Kids

Junior Master Gardeners can earn free certification and can be awarded medals and other recognition items through the program.

JMG® Teacher/Leader Training

The National JMG Program Office at Texas A&M University and affiliated land grant university JMG program partners offer training programs in local communities. Workshops are presented in a fun interactive format that include an overview of the Junior Master Gardener program, hands-on activities from JMG curriculum materials, and prepares participants on how to get involved.

All JMG workshop participants receive CEU credits for their participation.

JMG® curriculum

The Junior Master Gardener Program offers curriculum which covers a broad range of horticultural and environmental education topics. Science process skills, observation, taking measurements, and problem solving are naturally integrated into the curriculum through both group and individual learning experiences. All JMG curriculum are correlated to academic standards for science, math, language arts, and social studies.
