

2021 Junior Master Gardener Teacher Training Workshop

Thursday, July 22nd, 8:30am-1:00pm

Texas A&M AgriLife Extension Service-Gregg County
405 E. Marshall Ave. Suite 101 Longview, TX 75604

Please register by July 13, 2021. | LUNCH WILL BE SERVED.

Ever suck a bug to study insects or make mud pies to evaluate soil texture?!

The TEKS-based *JMG Teacher & Leader Guide* provides elementary teachers with the tools to teach the world of gardening with eight chapters of novel, hands-on and proven lessons. The curriculum also helps develop life skills, includes career exploration, and provides opportunities for students to culminate the JMG experience with service-learning projects. As students complete areas of study, they can earn different recognition certifications including designation as *Certified Junior Master Gardeners*.

Come join us for the *2021 Junior Master Gardener Hybrid Multi-County Teacher Training Workshop!* This hands-on, professional development for elementary teachers wanting to teach more plant science, environmental science and/or implement school garden projects is coming soon! (Space is limited!)
